6515 52nd Ave NW
Gig Harbor, WA 98335

"From the time I wrote my first line of code in HTML & CSS and was introduced to the world of programming, I knew I wanted to be a web developer. Over the years, I have expanded my knowledge on other languages including markup, object-oriented, and scripting."

OBJECTIVE:

I am seeking a position with an established company where I can be part of a team and share my enthusiasm in web development and technical skills. I'm also seeking to work for a company where I can be challenged and that offers job opportunities with the possibility for advancement through dedication and continuing education.

PROJECTS:

Personal Portfolio Website

10/2019 – Current

Gig Harbor, WA

Developed a portfolio website for myself when I graduated college to expand on and include what I had completed while in college. I have continued to update and maintain as needed so that I can get exposure and additional hands-on experience.

EXPERIENCE:

Frontend Web Developer

Western Trailer Repair Inc. ~ Freelance

03/2020 – 04/2020

Seattle, WA

Completely updated and redesigned their company website by including new content and additional material to better understand who and what Western Trailer Repair Inc. is as a company, as well as the types of services they provide and what kinds of products they sell.
